Lotsearch Environmental Professional Reports - Identifying Potentially Contaminated Land

Lotsearch's Enviro Pro Report is the industry standard information service designed to help support environmental consultants when undertaking environmental assessments.

Each report references over 200 individual datasets including:

- EPA Contaminated Land Register
- PFAS Investigation Areas
- Groundwater Bores & Hydrogeology
- Landfill, Waste Sites & Facilities
- Current & Former EPA Licences
- Geology, Soil and Ground Hazards
- Heritage, Cultural Sensivity
- Natural Hazards

We have developed a unique Historical Land Use Database (HLUD) combining:

- Over 250,000 Historical Aerial Photographs
- Over 50,000 Historical Maps
- Over 3,000,000 Historical Businesses
- Information on former gasworks, quarries and other contaminative activities.

All of the information is kept up-to-date and is presented in an easy to interpret format.
